Wireless Internet Access Terms and Conditions

Our wireless technology allows us to provide our Instant Internet service to attendees as well as vendors and teams. Hourly and Daily services are available and can be ordered by anyone with a PC, laptop or PDA device that is configured with an 802.11b or g wireless card. The service can be ordered right from your wireless device connecting you to the web instantly.

We provide third generation Trapeze Networks access points throughout the facility to make this technology possible.

In order to provide these services MRLS has policies in place that help us to maintain the viability of our wireless network.

- Access points that are not authorized by MRLS cause conflicts between the unauthorized access point and our access points. These conflicts affect everyone from Race Teams, to exhibitors, to vendors, to attendees to show management. Many people can lose their signal and therefore, lose their Internet connectivity.
- If MRLS does not authorize an access point, then we do not know to coordinate this access point with ours until it is too late. We will be jamming the unauthorized access point causing it to be intermittent or inoperable. For these reasons ***we cannot allow unauthorized access points to be brought into the MRLS Facility.***
- **Wireless routers are also strictly prohibited.**
- **No routers of any kind may be used with this service.**
- This service may not be used for any streaming video applications.
- ***Unfortunately, this service is not available in the Paddock.***

<ul style="list-style-type: none">▪ PLEASE NOTE: Cordless phones, remote controls, monitors and any other products operating in the 2.4 GHz wireless frequency easily interfere with one another and may not operate properly on site without prior coordination through MRLS.

MRLS has been working to install a system that will protect our wireless environment and our Wireless Internet users from conflicting wireless signals. For more detailed information about our wireless service please review our Wireless Performance Declaration when you sign up for the services online.

If you have any questions regarding these terms and conditions, please call George Krieger at (831) 233-9138.
